

**PRODISPLAY®**

**LCD MIRROR VIDEO WALL**

Engage your customers like never before with our Mirrorvision Video Wall Displays. As a screen that also functions as a mirror, this incredible technology boasts a commercial grade LCD display suitable for 24/7 use meaning your space can still be productive even when you're not there.

This product is perfect for retail stores, corporate offices, car showrooms, toilets and restroom mirrors, giving your space a real sense of class. These screens support landscape or portrait orientation and come complete with HDMI, VGA and RS232 connectivity.

Our Mirrorvision Video Wall Displays are also available as an Interactive Touch Screen, offering the ultimate display to engage your customers. We can also offer LED Mirror Video Walls for applications that require extra brightness or long distance viewing. Oversized mirrors are available on request.
