

PRODISPLAY

Circular LCD Advertising Screens

Our Circular LCD Advertising Screens offer a unique, high-brightness circular screen solution designed to stand out in high-traffic commercial environments.

Available in 15.7-inch and 23.6-inch sizes, these displays provide a sleek, metal-cased aesthetic for modern retail, corporate, and creative installations. Equipped with a powerful RK-3568 quad-core processor and Android 11 OS, these units offer a smooth user experience and high compatibility for digital signage. The screens deliver consistent performance with a brightness of 700 nits, ensuring content remains vibrant under indoor lighting.

Designed for ease of use, each display comes with a comprehensive I/O suite including USB 3.0, Wi-Fi 6, and RJ45 Ethernet connectivity. CMS management software can help you deploy and manage your content across one or multiple screens effortlessly.
